

Lucy & Francisco

Nine black puppies, born the first of July — home with you the twenty-sixth of August.

Lucy DAM · 68 LBS

Our red girl — calm, clever, and deeply motherly. A finer face over a broad, well-set body, and the steadiness we most want to pass along.

Francisco SIRE · LOW 80S

English through and through — solid muscle, real strength, and a sense of humor that keeps the whole house laughing. Substance with a soft heart.

THE LITTER 9 Black males & females	BORN July 1, 2026 home Aug 26	GROWN SIZE 75 lbs + males	GROWN SIZE Upper 60s females	HEALTH Fully Cleared both parents

WHAT THIS PAIRING GIVES YOU

We've done this pairing before, and we'd do it again.

This is a repeat breeding, which means we already know what these two make together: thick, blocky, good-natured pups with Lucy's level head and Francisco's substance. The families who took home the last litter are the reason we bred them again.

Both parents are fully cleared of genetic disease. Every puppy is raised underfoot in our home, known individually from birth, and handled daily so that the dog who walks into your house already knows what a family sounds like.

Pick spots are happening this week.

Reserve your place in the litter with a \$500 deposit. Deposits are taken in the order they're received, and that order sets your pick. If you've been waiting on this pairing, now is the week to let us know — tell us whether you're hoping for a male or a female and we'll walk you through the rest.
